

## Vusion®

### Vusion® TS and PS Partial Vertebral Body Replacement

- Tapered nose facilitates insertion
- Ridges on both sides help eliminate migration
- Contoured, anatomical shapes
- Radiopaque markers for intra-operative orientation and post-operative visualization
- Manufactured from radiolucent PEEK polymer
- Available in parallel and lordotic options

The **Vusion TS and PS** implants are available in Parallel or 6° Lordotic in a range of sizes.
